

This manual is part of this product and contains important information on the initial operation and handling. Read through the instructions carefully, including the safety instructions, before using the product. Non-compliance with these instructions may cause serious injury and damage to the product. The instructions are based on the applicable European Union standards and regulations. Also observe your country's specific guidelines and laws. Keep the Safety instructions in a safe place ready for use at a later stage. If you pass the product on to a third party, you must give them these instructions too.

Installation

If in doubt, never carry out the installation yourself, but hire a qualified specialist!

- Place the LNB in the holder. Make sure that the coaxial connections are at the bottom and that the LNB feedhorn is aligned with the SAT mirror.
- Push the LNB in the direction of the arrow until it stops against the mounting clip (see picture). Thus the phase centre is in most cases adapted to the SAT-mirror.
- Screw the upper half of the holder tight to fix the LNB permanently.
- Connect the coaxial cable to the coaxial connector on the LNB. Turn the F plug on as far as it will go and then pull the weather protection over it.
- For optimum reception, we recommend that you align and adjust the SAT mirror and the LNB correctly using a suitable SAT finder, both during the initial installation and after replacing the LNB.

Safety instructions

- There are dangers for children and persons with reduced physical, sensory or mental abilities (e.g. partially disabled persons, elderly persons with limited physical and mental abilities) or lack of experience and knowledge (e.g. older children). Children and people with reduced physical, sensory or mental capabilities or lacking in experience and knowledge may only use the product under supervision or if they undergo a suitable briefing on the safe use of the product and they are aware of the associated risks and hazards. Do not allow children to play with the product. Do not allow children to clean or maintain the product without supervision.
- Check that the supplied package is complete and ensure that none of the parts are defective or damaged.
- Do not drop the product or expose it to strong shocks.
- Do not use the product if it is visibly damaged.
- When laying the connection cables, make sure that they do not become a tripping hazard.
- Do not open the casing. Leave repairs to qualified persons. Contact a specialist workshop in such cases. Liability and warranty claims are excluded if customers repair the product themselves, connect it improperly or operate it incorrectly.
- Only parts that meet the original device specifications may be used for repairs. This product contains electric and mechanical parts which are essential to protect against sources of danger.

Disposal

Disposing of packaging

The product is delivered in packaging made of recyclable materials to protect against damage during transport. Sort and dispose of these materials in the designated containers. Ask your local disposal company or local council about how to dispose of the product in an environmentally correct way.

Do not dispose of old devices in the household waste.

Do not dispose of batteries or electric and electronic devices in the normal household waste. The consumer is legally obliged to return electrical and electronic devices, and batteries that are at the end of their useful life to the point of sale or public collection points that have been set up for this purpose. The details are regulated by the respective national law. The symbol on the product, user guide or the packaging indicates this legal requirement.

Disclaimer

Schwaiger GmbH does not accept any liability or warranty for damages that are sustained due to improper installation or mounting, improper use of the product or non-compliance with the safety instructions.

Manufacturer's information

Dear Customer, please contact our Technical Support if you need technical advice and your re-tailer is unable to help you. Our technical support is available in English or German.

Information on warranty

The warranty period starts when the device is purchased. The purchase receipt serves as proof of this date. Keep these documents in a safe place. Our warranty is based on our warranty conditions valid at the time of purchase.

Declaration of conformity

Schwaiger GmbH hereby declares that the described radio system product complies with Directive 2014/53/EU and other directives applicable to the product. The complete EU declaration of conformity is available online at: <http://konform.schwaiger.de>
