USER MANUAL

AC Curtain Motor

Silent system
<20 Db.

Curtains radio
control

Works with Alexa
and Google Home™

Easy assembly
and installation

High quality and
technology

Also manual
operation

Great weight
resistance

Everything with a very
competitive price

FEATURES

Intelligent curtain motor for every common home

Manual Operation: When powered on, the curtain could be pull by hand with 10cm. Then the curtain open or close automatically

Manual operation without power: Without power, the curtain could be controlled by hand

Obstacle stop function: the motor could stop when it meets obstacle ,in order to protect the system

Intermediate position: motor could have a intermediate position which is between close and open position

Automatical position: motor could remember the close and open position, users do not need to reset.

Multi-control: users can choose different ways to control, such as emitter or switch.

Freely assembling: DIY design and customized tracks.

0.2m track connector

1m track

0.5m track

Auxiliary Hook

Auxiliary hook

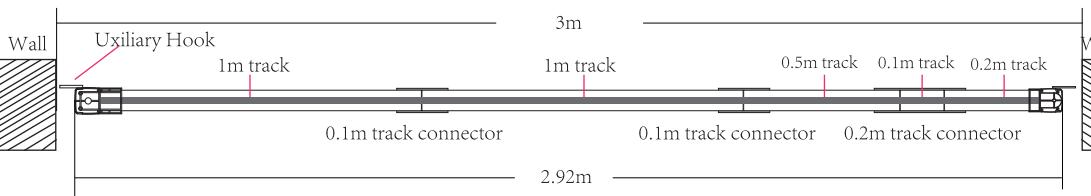

0.2m track

0.1m track

Example:track connect solution

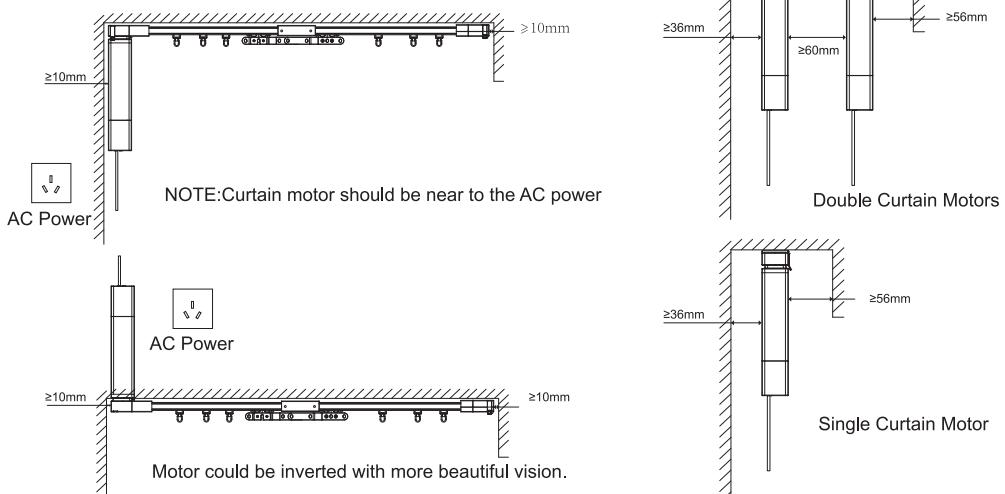

The distance between the track and the wall is at least blank 10mm

Pay attention to the solution and the position of 0.1m track connector and 0.2m track connector when you use them
Center opening +Subsidiary opening=0.12m(length)

The distance between the track and the wall is at least blank 10mm

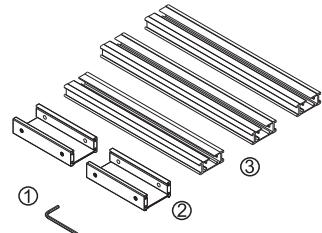

Curtain Track Dimension & Measurement

Track Installation Steps

Three sections as an example

- ① Allen wrench
- ② Connections
- ③ Tracks

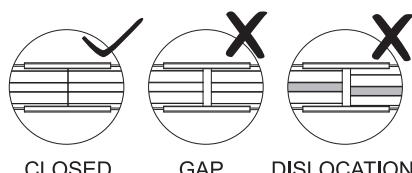

- 1 Put the tracks and connections on flat ground

- 2

- 1 Push the tracks into the connections.
- 2 Let the tracks closed in the connection, then tighten the screws through Allen wrench.

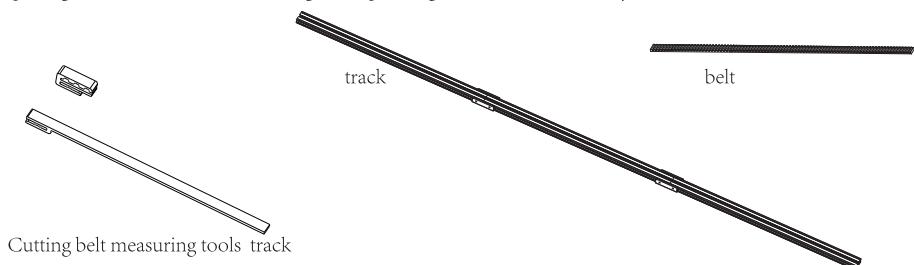

NOTE: through tightening the screws, users can adjust the gap of two tracks. No gap, no dislocation.

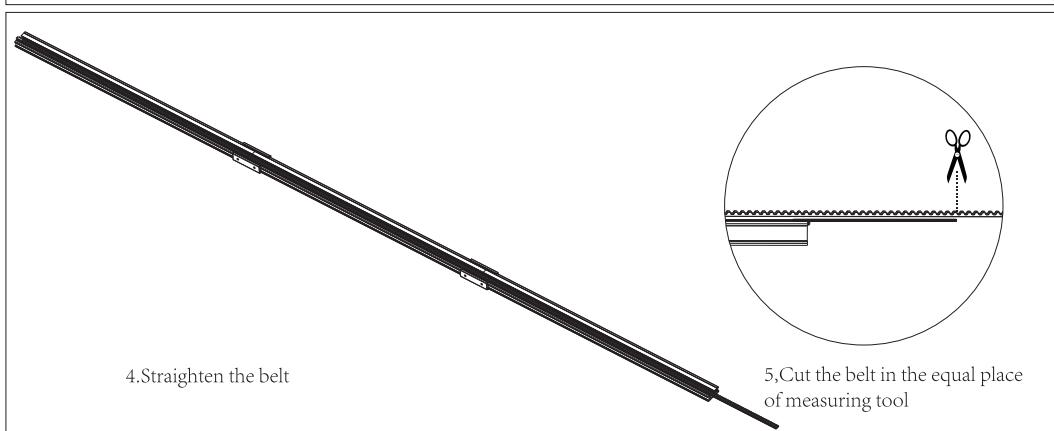

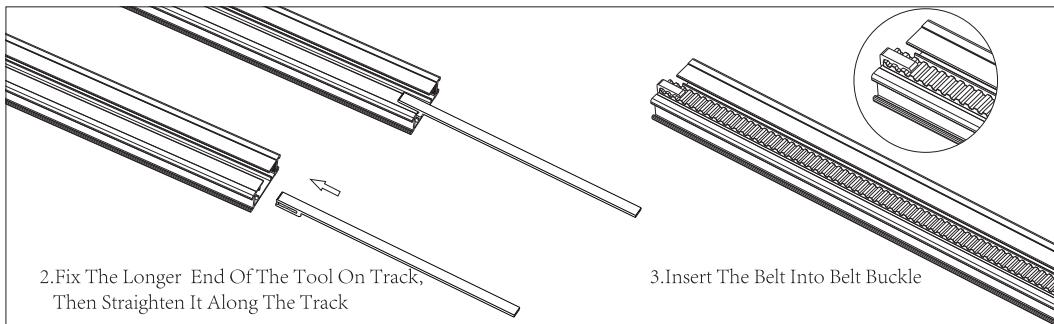

Cutting belt measuring tools instruction manual

Remark: Only applicable double direction opening belt cutting

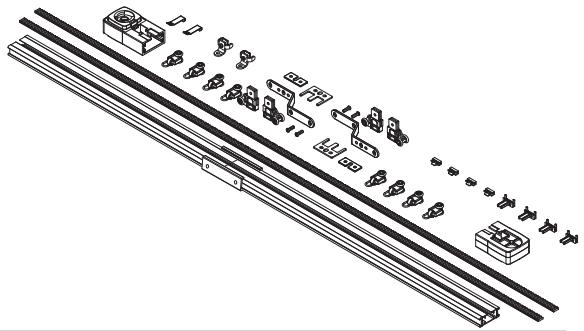

Double opening direction track needs making two equal length belts in the same way.

Take the tail set fixed at 1 end

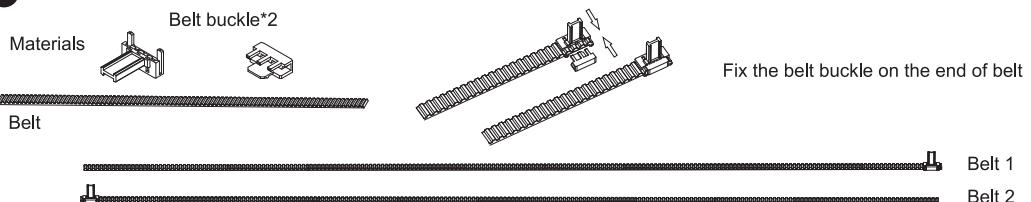

Double-side Open Track Installation Steps

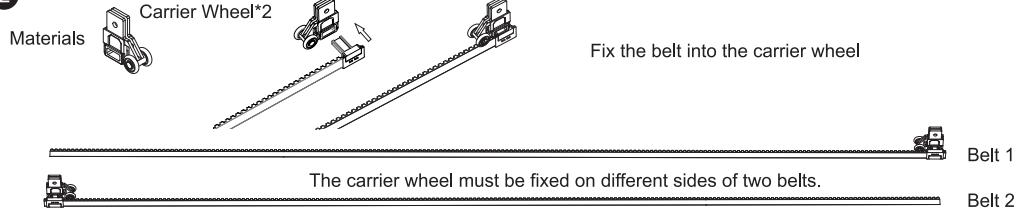

*Use cutting belt measuring tools to cut belt
Customer needs 2 belt in same length.
*Runners: 8pcs per meter; integer forward
*2pcs hooks
*2pcs carriers for Double-side Open
2 sections track as an sample

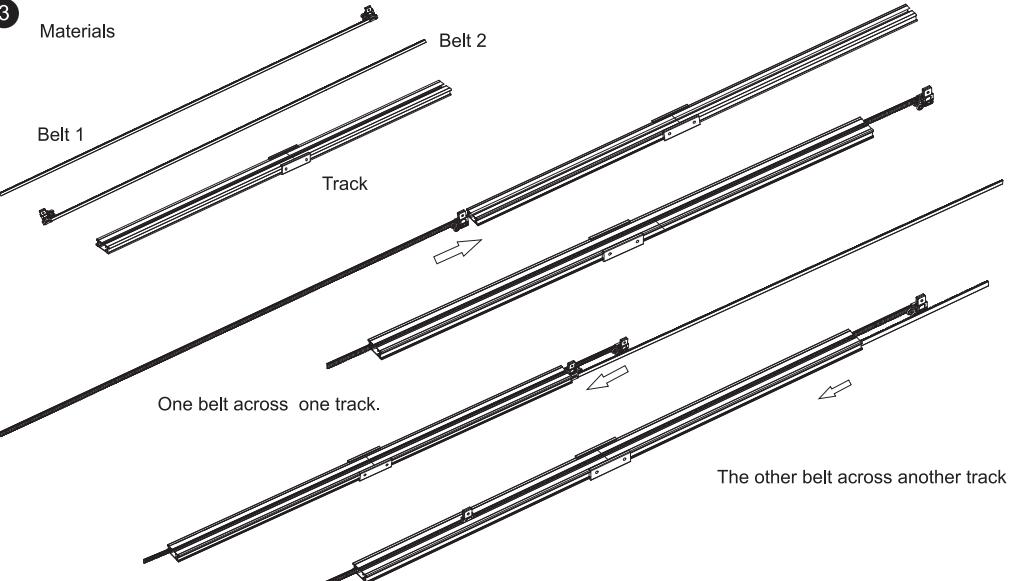

1

2

3

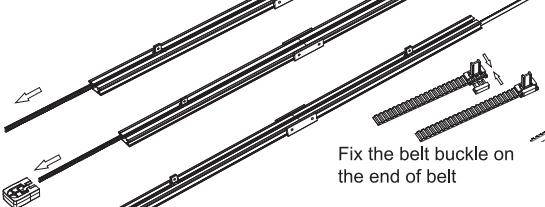

4 Materials

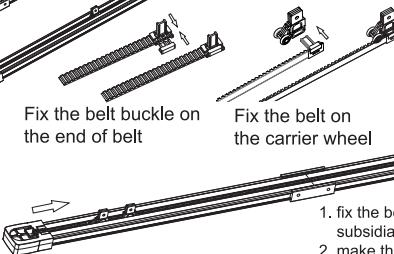

Subsidiary opening Belt buckle Carrier wheel

Pull out one belt from the track

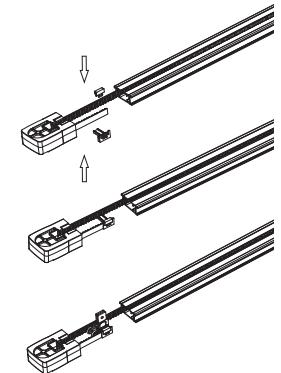

Step 1

Fix the belt buckle on the end of belt

Fix the belt on the carrier wheel

Assemble Subsidiary Opening

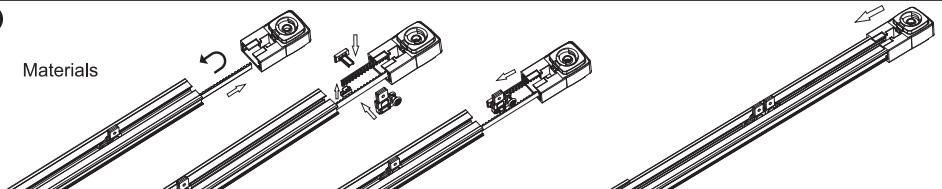

Step 2

The belt across the subsidiary opening

1. fix the belt buckle on the belt which has passed the subsidiary opening
2. make the belt buckle and carrier wheel firmly
3. pass the carrier wheel through the track, and push the track in subsidiary opening
4. make the subsidiary opening and track firmly

5

Materials

Center opening

Carrier wheel

Belt buckle

Assemble Center Opening

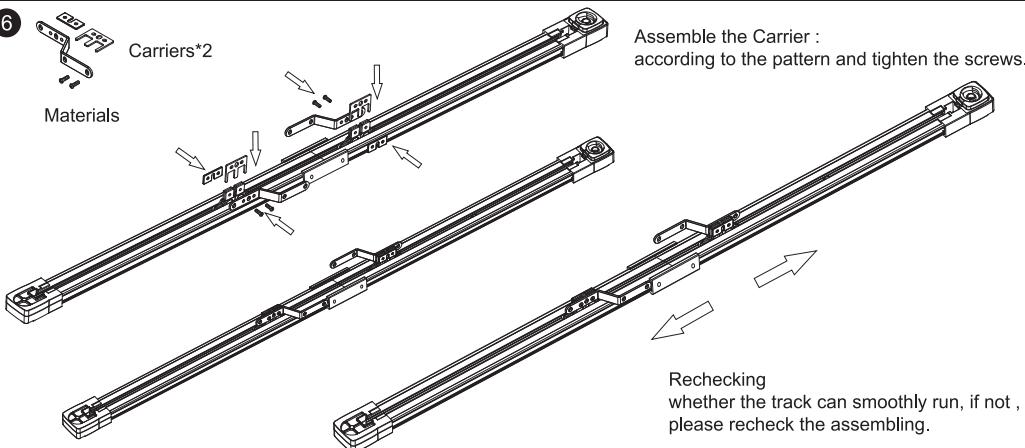

1. the belt across the center opening
2. fix the belt buckle on the end of belt
3. pass the carrier wheel through the track
4. make the center opening and track firmly

6

Carriers*2

Materials

Assemble the Carrier :
according to the pattern and tighten the screws.

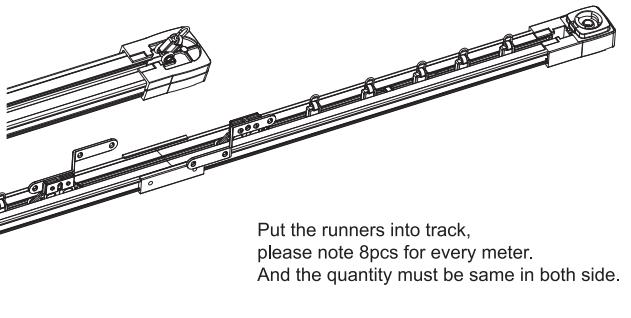

Rechecking
whether the track can smoothly run, if not ,
please recheck the assembling.

7

Materials

Runners

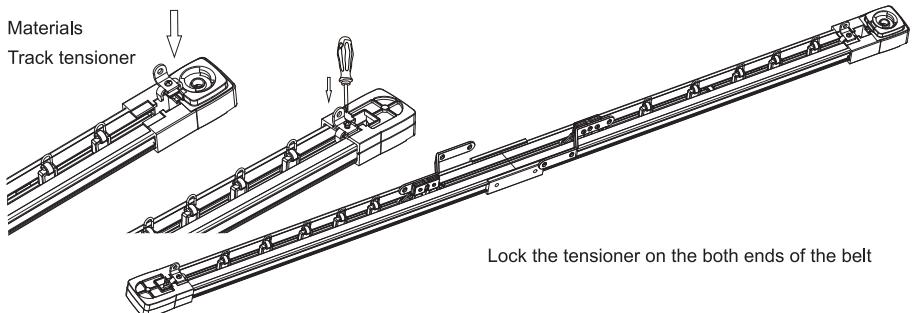

Put the runners into track,
please note 8pcs for every meter.
And the quantity must be same in both side.

8

Materials
Track tensioner

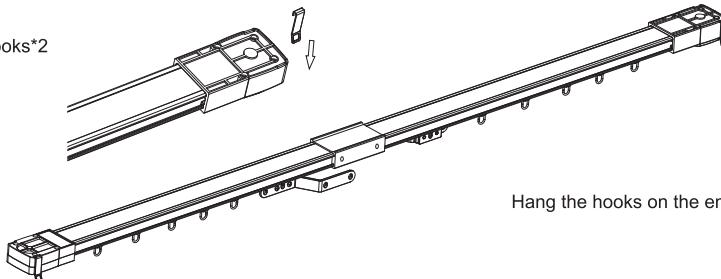

Lock the tensioner on the both ends of the belt

9

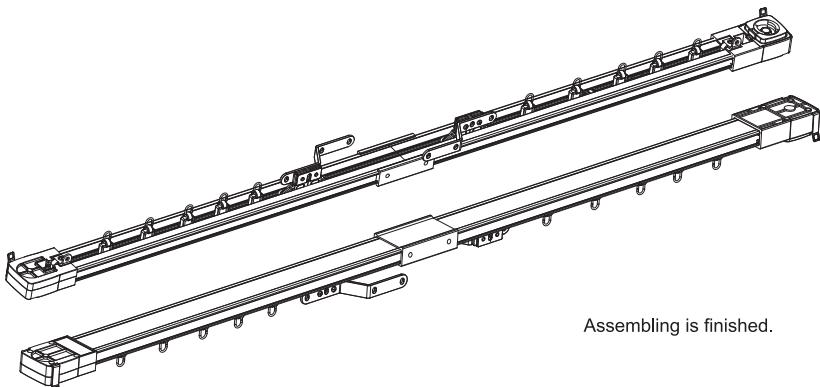

Hooks*2

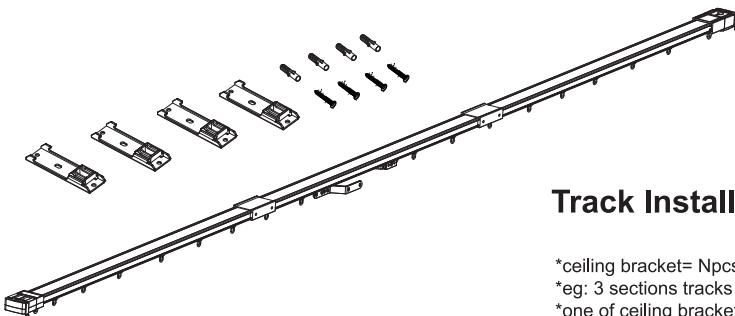

Hang the hooks on the ends of the track

10

Assembling is finished.

Track Installation Steps

*ceiling bracket= Npcs section+1pcs

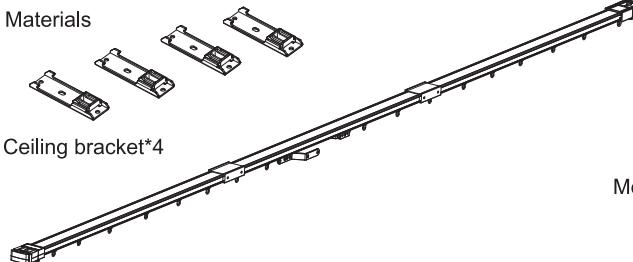

*eg: 3 sections tracks with 4 ceiling brackets

*one of ceiling brackets must be near to connection.

*two of ceiling brackets should be close to both opening.
3 sections track as an sample

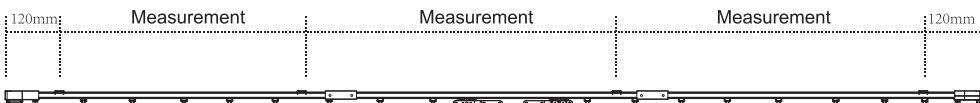

① Location of Ceiling bracket

Materials

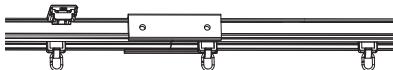

Ceiling bracket*4

Measuring the distance in advance

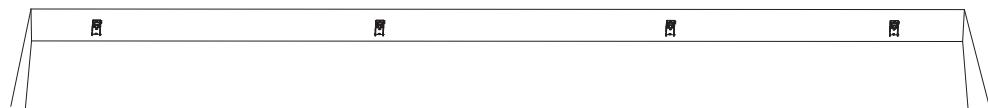

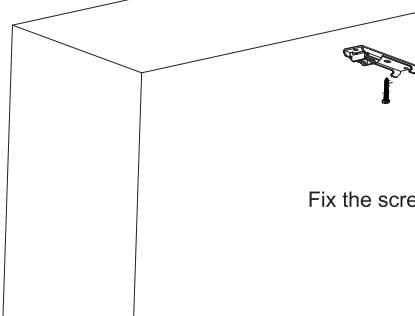

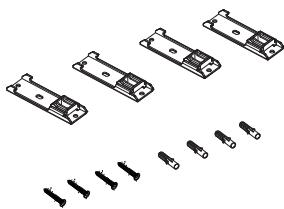

NOTE: One of the ceiling bracket must be near to the connection

② Fix the Ceiling bracket

Ceiling bracket*4 & screws

If the wall is concrete, please use the expansion screw

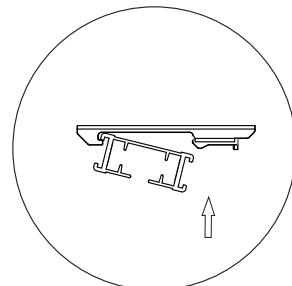

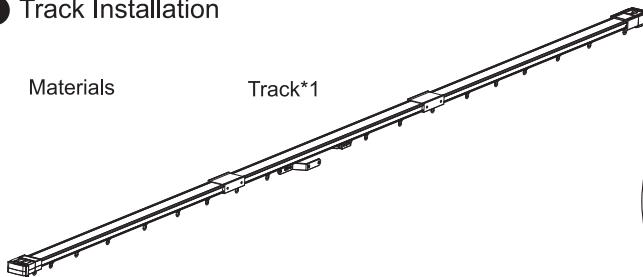

After determine the location, mounting the ceiling bracket

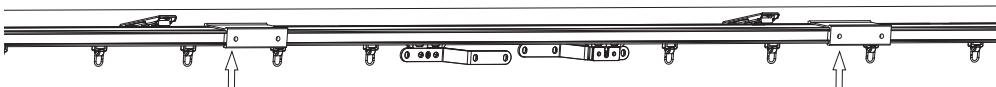

③ Track Installation

Materials

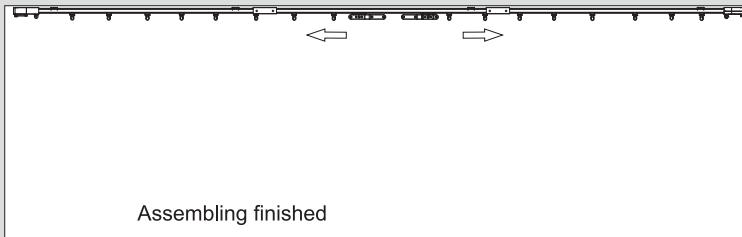

Track*1

Insert one side of the track,then push and make the track fully go into the ceiling bracket

④ TEST

NOTE:

1. recheck the carrier, whether the track can smoothly run, if not ,please recheck the assembling.
2. recheck the connections,keep the connections and track close.
3. the hook should face to the users,not to the wall.

Disassembly of track

Follow the steps

Original state

Slip the lock

Take off the track

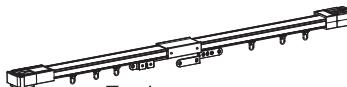

MOTOR

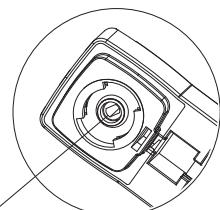

① Materials

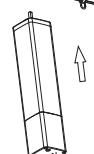

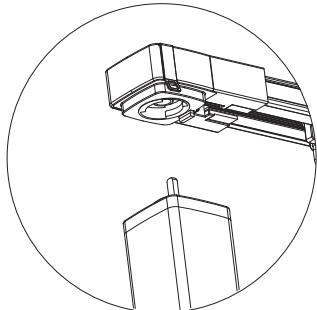

Motor

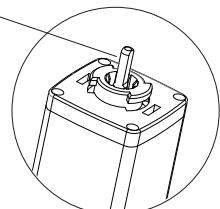

Track

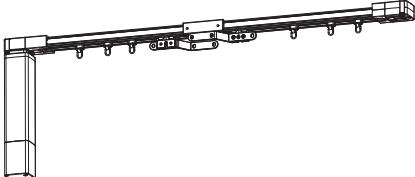

Shaft & spigot

Match the motor with the spigot of the center opening

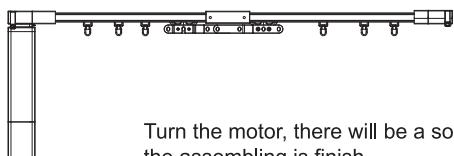

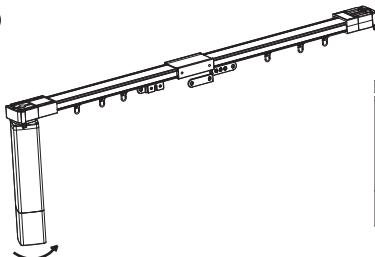

2

Complete matching

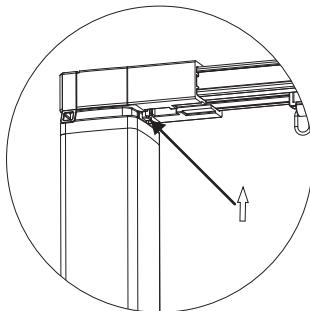

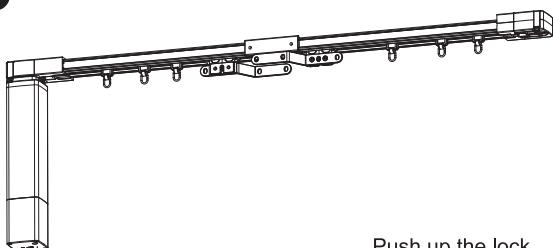

3

Turn the motor, there will be a sound of lock.
the assembling is finish.

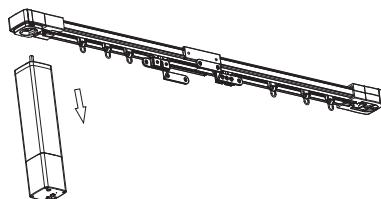

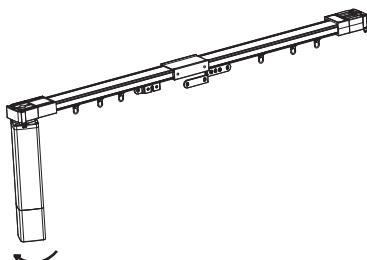

Disassembly of motor

1

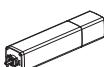

Push up the lock

2

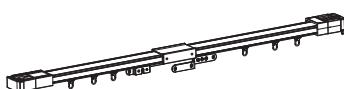

Turn the motor and take it off.

3

Motor

Track

Disassembly is finished.

Emitters

CLOSE STOP OPEN

E102

E101

The mounting frame

The reverse side

E201

E206

The reverse side

Hand-held

Bracket for wall fixation

Method 1: Short press PROGRAM

Motor was powered on, press the MATCH button once.

Open K1 and K2 again, the motor stops running.

Open K1 and close K2, the motor stops running.

Open K1 and K2, the motor keeps running.

Open K1, and close K2 again, the motor stops running.

Open K1 and K2, the motor stops running.

The Third Way

Control cable A	K1	_____	_____
Public cable	_____	_____	_____
Or	_____	_____	_____
Control cable B	K2	_____	_____
Public cable	_____	_____	_____

① and ② have the same function, take ① as the example

- ① When the motor stops running and K1 is opening, users close K1, the motor will stop running.
- ① Open K1, motor keeps running. Close K1, motor will stop running.
- ① Open K1, motor stops running. Close K1, the motor stops or starts
- ① Open K1, motor keeps running. Close K1, motor stops. Open K1, motor stops. Steps as a circle

PROBLEM & SOLUTION

- * Not smoothly running: adjust the screws of the connections.
- * Motor stops running: check the electricity and voltage
- * Emitter : check the battery and code matching.
- * temperature protection: the AC motor will stop with long-time running. But manual operation function is still available , also motor will remember the position.
